

Mathematical Modeling Publishing Experience Sharing (CN)

Yingkai Li (SJ)

High School Maths Teacher

Description:

In this session, participants will explore innovative teaching methods for mathematical modeling, exchange fresh perspectives, and analyze the practical applications of research data. The presenter will share his experience of collaborating with external publishers and showcase specific cases during the publishing process.

Outcome:

Participants will learn innovative mathematical modeling teaching methods, acquire data analysis skills, and understand the publishing process to enhance their teaching and sharing skills.
